

Fernando Pessoa

## Notes — 1. Alteration is of Time.

Notes

1. Alteration is of Time.  
Transference is of space.
2. Critique of Materialism.

Materially, the only thing that really exists is the present moment.  
Rationally it is different.

The conclusion to be drawn from fatalism: that what reason knows exists before reason; that is to say, to the human reason the future is present.

1907?
